

Congratulations on completing my challenge! You have proven that you are the rightful heir to my Bitcoin fortune. While I once owned 1,000,000 bitcoins, I sold them in 2009 when they were worth 0.03 cents each. This earned me a cool \$300.

You are now the proud owner of my windfall, which I used to buy a box of novelty stickers and some candy.

Enjoy,

Satoshi

PS: Please only take one sticker and one piece of candy so that others can enjoy my fortune.

Reset Instructions:

Step 1: Take a picture of this sheet with your iPad. You will soon be locking it away.

Step 2: Give your teacher your completed puzzles in exchange for a set of fresh copies.

Reset Puzzle #5: Paperclip the small metal key envelope onto the fresh paper for Puzzle #5. Then put both back under your desk where you found it.

Reset Puzzle #4: Put all transparencies back into the correct manila envelopes (the winning envelope is labeled "THAW").

Reset Puzzle #3: Put the fresh paper for Puzzle #3 back under the Large Lockbox. Put this reset sheet inside the Large Lockbox (don't forget to take a picture). Put the 4-digit lock, the Letter Lock, the Key Lock, and the Directional Lock back onto the Large Lockbox, then scramble the tumblers to lock them.

Reset Puzzle #2: Put the fresh paper for Puzzle #2: Light the Way and the black light flashlight back into the Small Lockbox. Lock the small lockbox using the 3-digit lock, then scramble the tumbler (or set it to 000).

Reset Puzzle #1: Return the Small Lockbox to your teacher's desk.

Thanks for playing, and good luck on the test tomorrow! If you enjoyed today's game, please help your friends enjoy it as much as you did: don't tell them about today's puzzles!
